Standing tall by the virtue of deeds...

**Gujarat gives India and the world,
the tallest statue ever made!**

An embodiment of Sardar Patel, the Statue of Unity is planned as an iconic structure with the ambition of being the world's tallest statue at 182 meters. To be perched at Sadhu Island, approximately 3.5 km south of Sardar Sarovar Dam at Kevadia in the Narmada district of Gujarat, this monument will be more than an impressive statue. It will stir Indian hearts into remembering our freedom struggle. The vision of the great man who wanted each and every one of the Indian states, every last Indian to be united.
